

BAM High Tech

"World's Best Bassoon Case" another innovation from BAM and Miller Double Reed. This case features BAM's patented process of laminating ABS, Airex Foam and Carbon Fiber type of ABS into a 10 mm sandwich of ultimate protection from shock and temperature. This "High Tech" material gives the case incredible strength and lightness. As for size, setting next to the popular "Bonna" case, it is no longer, no taller and no thicker than the Bonna ... only difference is the case is rectangular instead of the narrowing shape of the Bonna!. It has easy opening combination lock latches for extra security. It comes with a zippered accessory pouch inside, shoulder / back pack straps with super secure carabineers, "memory foam" padding for superior comfort, Bi-Molded ergonomic handle, low profile handle on the end, external music pocket & accessory pouch (that are removable for even lighter weight and smaller profile). Inside the bassoon is cradled in BAM's molded interior suspension system developed for delicate string instruments. This memory foam suspension system suspends the bassoon at the ends of the joints and conforms to the exact shape of each instrument suspending the instrument so there is no pressure on any of the keys! All in all an outstanding looking case with unparalleled protection! Every bassoonist should own this case in order to protect their investment! The Color is called "Black Carbon".

Now Available in Leather - Black, Violet, Greige & Cognac.

Chocolate & Sky Blue special order.

26.77" L x 11.81" W x 4.92" H (68cm x 30cm x 12.5cm) 8.37 Lbs. (3.8 KG)
