

Track your case

AND ORGANIZE YOUR MUSIC LIFE.

GIGS, THE NEW APP BY BAM:

- The **GIGS by BAM** app is a free app for the smart music case.
- Musical instruments can easily be located and their location tracked via the app.
- In addition, information such as temperature and humidity are measured via sensors, so that the right conditions can always be monitored for all kinds of instruments and instrument cases.
- The sensors are part of the device and are transferred via mobile connectivity data roaming to the BAM app.
- SIM cards with mobile connectivity data roaming are provided by Vodafone and include a 3 year worldwide connectivity.
- In addition to tracking music case data, orchestras, bands or school choirs can be organized through the app.
- This includes features like news feed, chat, event calendar for organizing rehearsals and concerts.
- Additionally, groups can organize their rehearsals and performances, share photos and videos.
